Children and Fire

It's natural for young children to be curious and ask questions about fire, play with fire trucks or pretend to cook. Use these opportunities to teach them about fire safety.

- Explain that fire moves very fast and can hurt as soon as it touches them
- Teach children the nature of fire - It is FAST, HOT, DARK and DEADLY
- Explain that matches and lighters are tools for adults only
- Teach your children to tell an adult when they find matches or lighters
- Test your smoke alarms monthly

Reminders:

New This Year! We have four bus stops in the Centennial area. If you live more than 1 km away from our school your child can ride the bus! Use Google Maps to determine your distance and fill out an Urban Transportation Registration form.
